

Setting up Delivery Order in EPICOR

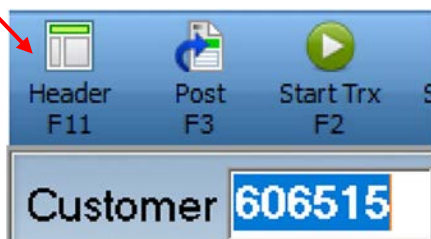

1. Log into Eagle POS.
2. Ensure that Eagle is in Create Order (COD) mode versus Sale mode (workstations can be set to default to either Sale or Order mode – whatever is more efficient for that workstation).
 - a. You can tell which mode you are in by the upper right hand of your screen. If you need to change from Sale mode to Order mode (or vice versa)
 - i. Press Start Trx (F2)
 - ii. 3-Order

3. Scan prescriptions. If patient does not automatically populate, please enter patient manually (and also see instructions on **Adding Cerner ID to Eagle Account**)
4. Select Customer (F11) from top tool bar.

5. Select Header (F11) from top tool bar.

6. Your screen will now look like this:

Customer	606515	Bob Test	Short ID	TESTBOB	Create Order
Job #			P.O. #		
Order #		Ph #	Created	8/29/18	By JEREMYZ
Ref			Store	9	
Ship To	BERTHA TEST				
	123 ANY STREET				
Ship Via					
	ANYTOWN	CA	90210		
Special Instruct	LEAVE WITH CONCIERGE DESK				
Delivery	08/29/18	Source Vendor			
Prt Prices	Y	Stocked Type	P		
Pricing	R	Codes			
Cost	A	Deposit Amount	0.00		
			Terms	1	NET EOM
			Tax	9	2400 Dallas Medical
			Slspr		
			Resale #		
			Address	475 atlantic ave Brooklyn, NY	
			Cr/Avail	5,000.00	Statement Bal .00
			Balance	.00	Last Pay
			Credit		
			Message		
			Names		

7. Verify address to ship to.

- If address on right side of screen (as depicted by the blue arrow above) is the correct Delivery address then do nothing in the address fields on the left side of the screen.
- If the ship to address is NOT the correct Delivery address then:
 - IF the Delivery address is not a permanent address change for the patient (only a one time delivery address OR not the patient's primary address):
 - In this case, we simply add the Delivery address to the left-hand side of the screen. It is important to follow this layout:
 - The patient name is on the first line (Bertha Test)
 - The patient address is on the second line (123 Any Street)
 - The patient apt., suite, etc is on the third line
 - The city, state and zip code go on the fourth line (Anytown, CA 90210)
 - IF the address needs to permanently updated for the patient:

1. Highlight the customer field, and press MENU

The screenshot shows the 'Point-of-Sale Header - Order #213' window. The 'Customer' field is highlighted with a red arrow. The window contains various fields for order entry, including 'Job #', 'Order #', 'Ref', 'Ship To', 'Ship Via', 'Special Instruct', 'Delivery', 'Prt Prices', 'Pricing', 'Cost', 'Short ID', 'P.O. #', 'Created', 'Terms', 'Tax', 'Slpr', 'Resale #', 'Address', 'On/Avail', 'Balance', 'Statement Bal', 'Last Pay', and 'Names'. The 'Customer' field is currently set to '805515' and 'Bob Test'.

2. From the pop-up window, select 8 "Add/Change Customer or Job"

The screenshot shows the 'Header Menu' pop-up window. The menu contains 16 options, each with a key and a description. Option 8, 'Add/Change Customer or Job', is highlighted with a red circle. The options are:

Key	Description
1	Recall Last Saved Document
2	Reprint, View Invoice
3	Enter Charge Authorization
4	Enter Document Reference
5	View Documents
6	Enter Document Notes or Delivery Instructions
7	Recall Suspended Transaction
8	Add/Change Customer or Job
A	view Customer Returns
D	Mark Order as Direct Ship
E	eStore Information
J	Source Order from Transfer
M	Shipping Options
N	Shipping Confirmation
Q	View Deposit Activity
T	Multiple Ship To
V	View/Change Customer/Item Codes
W	Show Customer Balance Info
X	Recover 'In Process' Transactions
Z	Change Blanket Order Method

A 'Cancel' button is located at the bottom right of the menu.

3. Change whatever needs to be updated in the address (or other) fields, and then select CHANGE

Customer Add/Change - Store: 20 Terminal: 112 Signed On User: JEREMYZ

4. Press the Close button. This has now permanently updated the patient info in the Eagle database.

8. Add any special instructions in the Special Instruct field. These will not permanently save anywhere in EPICOR and must be entered each time. The special instructions will display on the printed order ticket for the PSL to see

9. Verify Delivery Date

10. Then select Ship Via

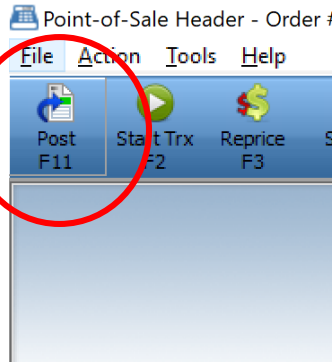

The screenshot shows the 'Create Order' form. A red arrow points from the instruction '10. Then select Ship Via' to the 'Ship Via' link in the left sidebar. Another red arrow points from the instruction '9. Verify Delivery Date' to the 'Delivery' date field, which is set to '08/29/18'. The form includes fields for Customer (606515), Job #, Short ID (TESTBOB), P.O. #, Order #, Ref, Ship To (BERTHA TEST, 123 ANY STREET, ANYTOWN, CA, 90210), Special Instruct (LEAVE WITH CONCIERGE DESK), Delivery (08/29/18), Source Vendor, Priced Y, Stocked Type P, Pricing R, Codes, Cost A, Deposit Amount (0.00), Created (8/29/18), By (JEREMYZ), Store (9), Terms (1), NET EOM, Tax (9), 2400 Dallas Medical, Slsp, Resale #, Address (475 atlantic ave, Brooklyn, NY), Cr/Avail Balance (5,000.00), Statement Bal (.00), Last Pay, Credit Message, and Names.

11. Shipping Options window will open.

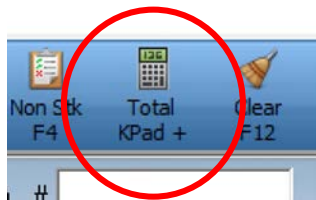

The screenshot shows the 'Shipping Options' window. Two red circles highlight the 'Ship Via' dropdown menu, which is set to '1 Standard Delivery', and the 'Delivery Time' dropdown menu, which is set to '1 Anytime'. The window also includes fields for Route, Day, Stop, Backorder Allowed (Y), Ship Complete (N), Alternates Allowed (Y), Release Version (00), Order Status (On Order), Direct Ship, Loaded By, and Delivered By. There are 'OK' and 'Cancel' buttons.

- a. Select Ship Via from drop down menu - **Must be populated or will not pass to DDMS.**
 - i. 1 Standard Delivery
 - ii. 5 Stat Delivery
- b. Select Delivery Time from drop down menu
 - i. 1 Anytime
 - ii. A Morning (may not be an option in your geography, check with your PSL team)
 - iii. P Afternoon (same as above)

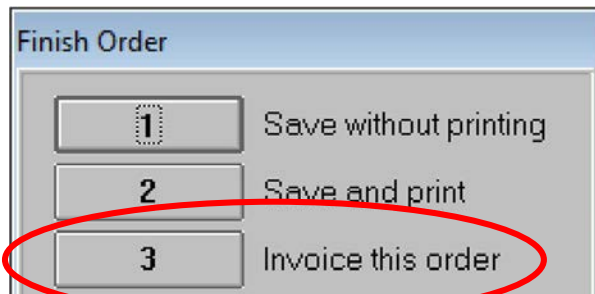

- c. Select Load Type
 - i. 1 Standard Medication
 - ii. 2 Refrigerated Medication
 - d. Select OK (these are the only fields used on this page)
12. Select Post (F11) from top tool bar to return to the original POS screen.

13. Select Total from top tool bar.

14. From Finish Order Menu select Option
- a. **For Deliveries going to patient (most common), Select 3 to Invoice the order**
 - b. For Packages going to another AHF Pharmacy for patient pickup, Select 2 Save and Print.
 - i. **PLEASE NOTE: IF you have a situation that requires option b. Please ask the Epicor support team for further instructions. This is NOT a common practice.**

15. If there is a copay due, then complete transaction as you would a regular transaction on EPICOR (Bankcard or Charge (AR)).
16. Delivery Ticket will print. Fold in half and place within the invoice sleeve on the delivery package. Please make sure the Eagle invoice with the Eagle bar code is clearly visible.
