

AHF PHARMACY
PHARMACY QUALITY OUTCOMES SPECIALIST
SITE AUDIT FORM
ACCREDITATION READY REVIEW
ALL SITES

The Pharmacy Q.O. Specialist uses this form to audit the pharmacy during their “accreditation ready” visits. The form is completed by the Q.O. Specialist and discussed with the Pharmacist In-Charge/Manager in an exit interview after the audit. A copy of the report is uploaded to the AHF shared “K” drive for the Regional Directors to retrieve and review.

THIS IS A PEER REVIEW DOCUMENT AND IS NOT TO BE eMAILED

PHARMACY Name: AHF Pharmacy Cabrini P4H

Pharmacy #: _____

Date: 12/19/2023

Date of Last Audit: 6/2/2023

Plan of Corrected from last Audit completed: **No**

Please mark the appropriate box for each question. If “NO”, enter a suggested “CORRECTIVE ACTION OR ACTION PLAN” if appropriate. If more space is needed, you may add additional sheets.

The Q.O. Specialist reviews the prior audit to determine if all of the action plans have been completed and fully implemented prior to the start of the audit.

Action plans or plan of correction items that have not been implemented are to be reported via this audit, with a notation obtained from the Pharmacist In-Charge/Manager of a proposed completion date.

Pharmacy Core

Yes	1	The framed Grievance poster is located in a place within the pharmacy that is easy for patients to observe.
Yes	2	The pharmacy staff knows how to access and use the Quantros reporting system.
Yes	3	The pharmacy staff is familiar with the AHF Customer Care Line and how patients can access.
Yes	4	Is the pharmacy staff aware that the PIC must try to resolve customer complaints and grievances at the store level prior to having the patient escalating the issue to the Customer Care Line?
Yes	5	The pharmacy staff is familiar with after-hours access to AHF Pharmacy services and can inform patients of how to access.
Yes	6	There is evidence that the pharmacy reports insurance audits to the Pharmacy Audit Team in a timely fashion.
Yes	7	There is evidence that the pharmacy reports inspections and other inquiries by regulatory agencies, and others, to Pharmacy Administration in a timely fashion.
Yes	8	The pharmacy site supervisor and staff understand responses to audits, and inspections from outside agencies and regulatory bodies are to be submitted by AHF Legal and Pharmacy Administration only.
Yes	9	All Corrective Action Plans from regulatory agencies (Board of Pharmacy, ACHC, URAC, etc.) have been completed and implemented in a timely manner.
Yes	10	The pharmacy has a secure "bin" for the collection of protected patient information (HIPAA)
Yes	11	The pharmacy staff is familiar with the Emergency Procedures and how to ensure that patients continue to receive their medications in the event of a disaster.
Yes	12	The Q.O. Specialist cannot find evidence that protected patient information is not disposed of properly, including: (1) discarded labels, (2) vials, (3) containers with patient labels, (4) patient list, (5) prescriptions, (6) other documents
Yes	13	The pharmacy utilizes privacy screens on work stations that may be observed by non-pharmacy employees, such as patients or clients.
Yes	14	The pharmacy has documented proof that they have a quality assurance meeting that meets at least once per quarter, including an attendance record.
Yes	15	The pharmacy quality assurance meeting has an agenda that includes QRE, regulatory updates, workflow discussions, policy and procedure updates as well as customer service issues.
Yes	16	There is evidence that the QMC meeting material from Admin/Management are being updated to the staff
Yes	17	The pharmacy is participating in approved quality improvement projects (measures).

Yes	18	The pharmacy staff understands their roles and responsibilities within their job descriptions. (Job descriptions may be found on the shared "K" drive)
Yes	19	Pharmacist and Pharmacy technician licenses are current and displayed according to applicable law.
n/a	20	AHF Courier driver's licenses are valid and current.
Yes	21	All permits required for the pharmacy to conduct business are displayed and current: (1) Board of Pharmacy (2) Non-Resident Pharmacy (if applicable) (3) DEA (4) State Controlled Substance (if required) (5) Local City, County or State business permits (if applicable) (6) Food Permits (if sports nutrition sites)
Yes	22	The pharmacy staff is current with all AHF required training programs
n/a	23	The pharmacy staff has access to the Training and Guidance manuals for new employees.
Yes	24	The pharmacy staff has access to the AHF Employee Handbook.
Yes	25	Documentation exists for new employees on orientation and training relevant to their job descriptions.
Yes	26	The pharmacy staff can describe the AHF chain of command.
Yes	27	The pharmacy staff can describe the AHF Pharmacy chain of command.
Yes	28	The pharmacy staff is knowledgeable in how to access on-line drug information (Gold Standard software).
Yes	29	All AHF Pharmacist have completed the National Certification for HIV medicine (AAHIVP) through the American Association of HIV Medicine or are working to be certified. (List name and dates of application if not certified in plan of correction)
Yes	30	The Pharmacy has signed signature on file forms, patient rights and responsibilities and notice of receiving Welcome Package
Yes	31	The Pharmacy staff is familiar with the Emergency procedures for all potential emergency and disaster situations.
Yes	32	Does the staff know the mission statement and its meaning?
n/a	33	Are required state and federal labor law posters visible to employees?
Yes	34	Does the staff know how to handle requests for information from regulatory agencies?
Yes	35	The staff follows AHF policy for Charity Care.
Yes	36	The staff informs patients of charges.
Yes	37	The pharmacy is secure and only a pharmacist possesses a key. The AHF Pharmacy Key Policy is in place and is followed?
Yes	38	Store Security: Panic button(s) are working?

Yes	39	Security cameras are working? Does the PIC know how to retrieve information?
n/a	40	All IT equipment is working properly?
Yes	41	Caller I.D. for outbound calls do not show AHF (Should read number and Pharmacy).
Yes	42	The pharmacy is following the AHF Cash Management Policies, including the appropriate use of POS system, bank deposits, petty cash procedures?
Yes	43	The Pharmacy Manager has completed the AHF Pharmacy or if the Board of Pharmacy requires the use of an official form "self-assessment" before July 1 of each year. The completed self-assessment form is filed in the Regulatory Manual?
n/a	44	There is evidence that a Patient Medication Leaflet prints for all new prescriptions.
Yes	45	There is evidence that the Pharmacy Staff can print a Patient Medication Leaflet at the request of a patient for new or refill prescriptions.
Yes	46	The billing queue is reviewed and monitored to ensure orders are billed and orders completed timely and accurately at frequent intervals throughout each shift.
Yes	47	Co-pay cards and other PAP assistance are applied correctly?
Yes	48	Dedicated staff assigned to rejection queue that is cleared on the daily basis?
Yes	49	Cycles are moved forward per policy after cycle billing is completed.
Yes	50	Does the pharmacy reconcile deliveries by collecting signatures and copays from patients that have their medication delivered/shipped?
n/a	51	Does pharmacy have P&P in place for Ryan White program according to the contract? (If applicable)
Yes	52	There are no documents, notes or other items on walls, doors, windows, etc. that are taped to the surface.
Yes	53	All posted documents are in frames and hanging in appropriate places that the auditor would expect them to be displayed.
Yes	54	The pharmacy premises are maintained in a clean and orderly condition.
n/a	55	Is there a need for maintenance such as: (1) Paint (2) Carpet replacement (3) Floor tile replacement (4) Fixture repairs (5) Chair or stool replacement
Yes	56	The pharmacy is following the AHF AR system?
n/a	57	The pharmacy has addressed all Corrective Action Plans from both accreditation agencies: ACHC and URAC?
	58	PHARMACY CORE PLAN OF CORRECTION <u>33) N/A. Staff can locate the State and Federal labor law poster however it is out of compliance with the QR code. Recommend they contact HR and ensure they have an updated poster displayed on the next QA audit.</u>

Staff present during virtual inspection 12/19/2023

Elizabeth Camper- pharmacy manager

Krystal Sterkel- staff pharmacy technician (off)

Aaron Tecklenburg- staff pharmacy technician

Abigail Bloomquist- staff pharmacy technician

2) Verified via video screen share staff can log in to RLDatix.

10) Staff has 2 secure HIPAA bins.

14,15,16) The last CQI meeting was conducted on 10/31/23 with all topics discussed on the agenda and staff signatures.

17) PDC scores, retention, and decreased delivery errors.

23) Currently no new hires.

24) Verified via screen share staff can locate the Employee handbook in AHF Connect.

29) AAHIVP certificate good thru 12/31/23. Will remind PIC to renew certification.

31) All staff members are familiar with their evacuation plan in case of an emergency or disaster situation. The meet-up spot is in the parking lot across from the high school.

33) N/A. Staff can locate the State and Federal labor law poster however it is out of compliance with the QR code. Recommend they contact HR and ensure they have an updated poster displayed on the next QA audit.

36) See the attached Clinical Care Notes Report for Medication access/cost consultation for Q3 2023. Staff inform patients of charges on new prescriptions.

38) Last tested 10/31/23 via phone call to securitas. They have 1 panic button by the pickup window.

39) Verified via screen share PIC has access to 4 security cameras.

42) Per PIC, they have no petty cash. They reconcile every morning and Brinks comes every Thursday to collect money.

43) Self-assessment was last completed on 6/5/23.

45) Verified via screen sharing staff can print a patient medication leaflet from Cerner.

46) See the attached Rejected Claims report. The report is blank no patients were found.

54) Verified no food or drinks (beverages) near the workstation via video chat.

56) See the attached AR worksheet for October. The current balance is \$98.84 and \$0 in the over 121 days column.

Customer Service

Yes	1	The staff is aware of Patient's rights and responsibilities?
Yes	2	The Grievance poster is prudently displayed.
Yes	3	There is evidence that the pharmacy staff provides the "Welcome" package to new enrollees in the AHF Pharmacy program.
n/a	4	There is evidence that the Pharmacist are completing request from Mirixa to complete MTM on specific patients and the information is transferred to the "Sales Force" documentation system.
Yes	5	There is evidence that the pharmacy is providing Adherence services to their patents on a regular and at least monthly basis, by documenting in the "Sales Force" documentation system.
Yes	6	The auditor observes pharmacy staff answering incoming telephone calls. Calls should be answered within 30 seconds (3 rings).
Yes	7	The auditor observes if the team member answering the phone identifies themselves by first name and their position. ("Hello, thank you for calling our Pharmacy, this is Jane and I'm a technician").
Yes	8	The auditor observes if the technician staff refers clinical questions to a pharmacist.
Yes	9	The Pharmacy staff is aware of how to access the language line and the instructions are posted within the pharmacy work area in a place that all have easy access.
Yes	10	The Pharmacy staff routinely and timely, retrieves prescriptions and refills from the "ePrescribing" queue in the Cerner system.
Yes	11	The pharmacy staff is familiar with the Policy and Procedure on handling "difficult patients"
n/a	12	The pharmacy staff follows the procedures for "Hardship Cases" if a patient is unable to pay.
Yes	13	The pharmacy staff follows the procedures for Non-Covered Products (NCP) and does not use NCP for prescription only medications.
n/a	14	The pharmacy staff follows the procedures for Charity cases.
Yes	15	Rejected claims are reconciled throughout each shift.
n/a	16	Walk in customers are acknowledged and greeted appropriately.
n/a	17	The pharmacy successfully maintains 30 minutes or less waiting time for patient to pick up prescriptions?
Yes	18	Does staff properly makes an offer for counseling?
Yes	19	Has the pharmacy staff participated and completed the customer service training and subsequent assessments?
No	20	The staff informs patients of "out of pocket" charges that may not be payable by their insurance or other assistance programs.

No	21	"Signature on File" forms are signed and current.
n/a	22	All new hires have completed all the required training, certification, and licenses?
	23	CUSTOMER SERVICE PLAN OF CORRECTION <u>20) Could not find documentation in SF if the patient was informed of out-of-pocket/cash charges after consultation on a new medication. Ex 223423, 219489, 221560</u> <u>21) See the attached PSA report. 271 to do out of 577 eligible patients. Must have 100% completed and current.</u>
	25	QA Notes <u>5) See the attached Adherence Review report. The pharmacy completed 93.8% of adherence calls for Q3 2023 (courtesy, wellness, and could not contact calls). July 93%, August 96%, and September 91%</u> <u>6) See the attached Avaya Call Metrics for Q3 2023. The total number of answered calls within 30 seconds is 97.9% and the number of abandoned calls is 0.8%.</u> <u>12,14) No charity claims were billed in Q3 2023. See the attached Plan code-Charity report.</u> <u>16,17) Could not be observed during the virtual inspection.</u>
	24	Pharmacy Notes

Drug Management

Yes	1	The Pharmacist are following workflow procedures a defined by AHF and only pharmacist are conducting PV-1 and PV-2 reviews.
Yes	2	All pharmacy staff, particularly technicians, is following workflow procedures as defined by AHF during the fulfillment phase, are scanning the prescription label and the product container to verify the correct medication is being dispensed.
Yes	3	The auditor observes that the pharmacist staff provides patients with product information upon request.
Yes	4	The auditor observes that the pharmacist provides consultation to patients regarding their drug therapy and other clinical information (not technicians).
Yes	5	The auditor observes pharmacy staff assisting patient's in obtaining prior authorization, co-pay assistance and other appropriate means of obtaining their medications.
Yes	6	There is evidence that pharmacist provide consultation and communication with patients providers, case managers, care givers and patients regarding the patient's drug therapy and medication action plan.
Yes	7	There is evidence that the pharmacy staff aggressively seeks payment sources for patient's medications when the patient has limited means.
Yes	8	The pharmacy staff is aware of how to access the clinical reference material both on-line and hard copy proved by AHF in addition to other sources that the pharmacist has requested.
Yes	9	Appropriate staff has been trained on the use of the "Sales Force" data collection software.
Yes	10	There is evidence that the pharmacist is routinely assessing the appropriateness of patient's drug therapy and recording observations, actions and other appropriate clinical information in the "Sales Force" data collection software.
Yes	11	All staff pharmacists are registered with CSOS and utilizes this system.
	12	DRUG MANAGEMENT PLAN OF CORRECTION <u>None.</u>
	13	QA Notes <u>1) Verified via sharing pharmacist is following workflow procedures during PV1 and PV2.</u> <u>2) Verified via screen share techs are following workflow procedure during the fulfillment phase.</u> <u>4) Good examples RX 221385, 221206, 221369 CCN- Good results</u> <u>6) Good example RX 219776 CCN on 9/26/23</u> <u>7) The AR report is at \$98.84. The over 121 days write-off column is \$0.00.</u> <u>10) See attached Clinical Intervention Notes for "Medication Regimen Reviewed for appropriateness and effectiveness".</u>
	14	Pharmacy Notes

Pharmacy Operations

Yes	1	There is evidence the staff is performing duties consistent with their job descriptions.
Yes	2	The staff has access to the employee handbook
Yes	3	There is evidence the staff have been properly trained.
Yes	4	The staff is current on all AHF required employee trainings.
Yes	5	There is documentation of staff meetings at least quarterly.
Yes	6	The staff can access reference materials including clinical, policy and procedures.
Yes	7	There is evidence, including documentation, that the pharmacist clarifies questionable or prescriptions that are not clear for one reason or another.
Yes	8	The auditor verifies that auxiliary labels are attached to finished prescriptions to ensure safety, storage and other cautions pertaining to the medication are available for the patient.
Yes	9	The auditor verifies that all prescriptions shipped or mailed to patients have a return address that DOES NOT INCLUDE the words "AHF" or "AHF Pharmacy". (The return address should be either the Pharmacist in-Charge/Manager name and pharmacy address or just the pharmacy address).
Yes	10	The auditor observes the packing of all delivery/shipping packages contain temperature appropriate devices to maintain appropriate temperature of medications during delivery/shipping.
Yes	11	The auditor observes if the pharmacy staff is following AHF workflow procedures and verifying the address of the patient (based on patient's requirements) for delivery/shipping.
Yes	12	The auditor observes if the pharmacy staff is following AHF workflow procedures and utilizing the correct shipping container to maintain the storage requirements of the medications being shipped.
n/a	13	Delivery vehicle is neat and clean.
n/a	14	Routine safety checks are performed on the delivery vehicle per policy.
Yes	15	Is there evidence that if a shipping/delivery is delayed or lost, that the pharmacy staff refills the medications and ships/delivers the patient's medications to the patient by the most expedient method to help ensure the patient does not miss doses.
Yes	16	There is evidence that the pharmacy has access to an Exception Report daily from UPS/FedEx packages that were not delivered
Yes	17	The pharmacy has implemented and maintains a perpetual inventory system according to AHF policy for high cost medications and controlled substances.
Yes	18	The pharmacy maintains a daily temperature log for the medication refrigerator, and entries are current.
Yes	19	The pharmacy has implemented AHF approved procedures for routinely checking inventory for expired medications.

Yes	20	The pharmacy has established a clearly marked separate storage area for hazardous materials.
Yes	21	The pharmacy has established a clearly marked separate storage area for medications that are expired and/or otherwise not suitable for dispensing to patients.
Yes	22	Staff is familiar with Universal Precautions.
Yes	23	Staff is familiar with the location of the "Spill Kit".
Yes	24	Staff is familiar with the "Eye Wash" station.
n/a	25	Staff is familiar with Emergency Preparedness procedures.
Yes	26	The pharmacy has implemented a system of routinely cleaning all equipment utilized in the fulfillment of prescriptions, including counting devices, automated dispensing equipment, weighing balances and other dispensing devices. The log for maintenance of equipment calibration is current.
Yes	27	There is evidence that all Power Failures are logged including resolutions during the event
Yes	28	There is evidence that Pharmacy conducts Fire and Disaster Drills followed by the proper documentation
Yes	29	The pharmacy uses a weight scale for calculating shipping fees for accuracy
Yes	30	The auditor tests all dispensing equipment for cleanliness.
Yes	31	The auditor observes if dispensing equipment is cleaned after known high risk substance that causes allergies, or that a clearly marked dispensing device is utilized for these substances.
n/a	32	The auditor tests all equipment for accuracy.
Yes	33	The auditor observes if pharmacy staff is limited to AHF policy roles and duties.
Yes	34	The pharmacy staff is familiar with accessing Material Safety Data Sheets (MSDS).
Yes	35	The auditor observes if the pharmacy staff follows infection control procedures including hand washing procedures.
No	36	There is evidence that the pharmacy keeps a Communicable Disease Log; and procedures are being followed
Yes	37	There is evidence that Hazardous Drugs are identified as such in the Pharmacy Inventory Area
Yes	38	The pharmacy staff is current with all annual health tests and vaccinations (i.e. TB and flu shot)
Yes	39	There is evidence that the staff is aware of REMS Policy and Procedure and how to report such incidents
Yes	40	Employees that have a short term illness are limited in their duties and exposure to patients or sent home until fully recovered.
Yes	41	The pharmacy sink has hot and cold running water.

Yes	42	The pharmacy restroom is clean, neat and in good working condition.
Yes	43	The air-conditioning and ventilation systems are in good working condition.
n/a	44	There is no evidence to suggest that the pharmacy is compounding medications other than the simple mixing of two or more ingredients into a container.
n/a	45	There is evidence that AHF Courier staff has been trained on the following: Courier Training Checklist
n/a	46	There is evidence that AHF Courier staff completed the monthly vehicle safety checklist
Yes	47	Is the pharmacy staff using Sfax?
	48	PHARMACY OPERATIONS PLAN OF CORRECTION <u>10,12) YES, Verified via video chat staff can demonstrate proper procedures for preparing/packaging refrigerated medication for delivery. Recommend they have a Spanish version of the trans tracker guide for patients.</u> <u>36) The Infection control tracking report was not completed in Q3 missing July. Last entry 6/5, 8/30, and 9/29/23. Will remind PIC to document monthly, if no occurrence, must be marked as "no occurrence".</u>
	49	QA Notes <u>7) Provided upon my request. A good example is RX 220373 CCn on 11/17/23</u> <u>8) Verified via video chat with staff. Aux labels are attached to will-call orders.</u> <u>9) Verified via video chat with each staff Fed Ex account.</u> <u>10,12) Verified via video chat staff can demonstrate proper procedures for preparing/packaging refrigerated medication for delivery. Recommend they have a Spanish version of the trans tracker guide for patients.</u> <u>16) Verified staff has access to the Fed Ex exemption report.</u> <u>17) CII rare reconciled monthly last entry 11/28/23. CIII-V is bi-annually. NDC 00406-8962-01 matches CII log book #40</u> <u>18) Verified via screen share. PIC has access to Dickson and alarms are acknowledged.</u> <u>19) Last entry 12/6/23</u> <u>21) Picture provided upon my request.</u> <u>24) Verified via video chat staff can demonstrate how to use the eye wash station and aware to rinse eyes for 15 minutes.</u> <u>26) Documents provided upon my request. Verified staff using the current cleaning log form.</u> <u>27) Last entry 10/15/23</u> <u>28) The fire drill was last conducted on 8/30/23 and completed 5 mins. The pharmacy has 1 fire extinguisher it was last serviced on July 2023.</u> <u>25) N/A, no current accreditation CAP for Emergency Procedures.</u> <u>29) Picture provided upon my request.</u> <u>31) A picture of 4 counting trays and spatulas was provided upon my request.</u> <u>32) No klrby machine in this location.</u> <u>41) PIC tested via video chat. The sink has hot and cold water.</u> <u>42) Picture provided upon my request.</u> <u>43) Verified video screen share with Dickson room temp and humidity are in the normal range</u> <u>44) The pharmacy does not compound medications.</u> <u>47) Verified via screen share staff has access to Sfax. They confirmed my test fax within 24 hours.</u>
	50	Pharmacy Notes

Patient Management

Yes	1	There is evidence the staff obtain allergy information from patients.
Yes	2	There is evidence the staff is updating the patient's demographic information on a regular basis, including shipping/delivery information.
Yes	3	Adherence calls are recorded in "Sales Force" data base.
No	4	There is evidence the "Welcome" package is provided to patients and signature pages are scanned into Cerner.
n/a	5	All MTM cases are current (Mirixa)
Yes	6	Staff is aware of the AHF records retention policy.
Yes	7	There is no evidence of patient protected information is discarded inappropriately.
Yes	8	Computer screens are protected from view of non-AHF personnel.
Yes	9	Does the staff understand how to educate patients on the proper disposal of their medication?
Yes	10	There is evidence that all appropriate pharmacy staff have access to "Sales Force" to document clinical and non-clinical interventions.
Yes	11	There is evidence that the pharmacist(s) are counseling the patients on the use of Adherence Packaging.
Yes	12	There is evidence that the pharmacist(s) are counseling the patients on the "Fit Your Life" concepts to help the patient maintain adherence to therapy.
Yes	13	There is evidence that the monthly Adherence Calls include asking if there are changes in the patient's medications, any adverse effects, do they feel the medications are effective, and is the patient taking their medications.
No	14	There is evidence that Patient Records in Sales Force are up to date including but not limited to Initial Assessment and Plan of Care
Yes	15	There is evidence that the pharmacy staff transfers calls to the pharmacist during the Adherence Call, if there are any changes in the patient's response to the call regarding the patient's drug therapy.
Yes	16	There is evidence that the pharmacist(s) are documenting any and all counseling that is provided to patients, providers, case managers, care givers and others providing care to patients, in the Sales Force software program.
Yes	17	There is evidence that the pharmacy staff will assist the patient in obtaining medications that require obtaining specific medications from another provider, by transferring the prescription and instructing the patient how to obtain and offering to provide further follow-up with the patient after they obtain the medication.
Yes	18	All pharmacy staff are wearing AHF picture identification badges that clearly identifies the employee by name and title.

n/a	19	Does the pharmacy participate in any Clinical Trials / Research Projects? (If your response is NO please select N/A in the next question)
n/a	20	There is evidence of the Procedures followed and record keeping of these Clinical Trial / Research Projects
Yes	21	The 35 day report is reviewed on daily basis by a person assigned to this task. Retention follow-up is completed daily?
No	22	Pharmacy is appropriately assigning patients to Nursing Home Cycles? (Use "Patients Not in Nursing Home" report).
No	23	There is evidence that the staff is completing Initial Assessments for new patients in Sales Force
No	24	There is evidence that the staff is completing reassessments for any change in medication therapy.
No	25	There is evidence that the staff is properly opting out patients who are on maintenance medication therapy that refuse clinical services provided by AHF Pharmacy
	26	PATIENT MANAGEMENT PLAN OF CORRECTION <u>4) Per the Initial Assessment. 2 patients were not touched therefore, no welcome booklets were provided. Must have 100% completed.</u> <u>14) Per the Initial Assessment. 2 patients were not touched therefore, their SF records are not up to date and plan of care. Must have 100%.</u> <u>22) See the attached Pt not marked NH report. 3 patients were found not assigned to a NH.</u> <u>23) See the attached Initial assessment report. 2 not touched out of 35 eligible patients. Must have 100% completed. Per PIC, there is usually a lag time when SF gets updated.</u> <u>24) See the attached Reassessment report. 12 to do and overdue out of 286 eligible patients. Must have 100% completed. Per PIC, SF there is usually a lag time when SF gets updated.</u> <u>25) See the attached OPT out report. Several patients with an expiration date of more than a year must be set for 1 year from when the patient requested the opt-out.</u>
	28	QA Notes <u>1) See the attached Missing Allergy report. No patients were found.</u> <u>2) See the attached Adherence Review report. The pharmacy completed 94.2% of addresses marked verified in SF for Q3 2023. July 93%, August 96% and September 93%.</u> <u>11) Good example RX 22242, 220482 CCN- Lifestyle</u> <u>12) Good example RX 214021, 222849 CCN-lifestyle</u> <u>13) Provided upon my request. See Rx 223160 CCN- pharmacist-patient visit.</u> <u>15) Good example Rx 218499 See adh call on 9/7/23</u> <u>16) Good example Rx 220258 Doxy, 219715 macrobid see CCN- good results</u> <u>17) Good example RX 214430 ADH notes in SF</u> <u>19,20) The pharmacy does not participate in any clinical trial/research projects.</u> <u>21) Verified 35-day report being worked on daily.</u>
	27	Pharmacy Notes

Quality Outcomes and Performance Improvement

No	1	Action plans have been completed related to Performance Improvement audits.
No	2	There is evidence that staff "self-reports" incidents including customer grievances, medication areas and other risk incidents.
Yes	3	There is evidence staff meetings that include customer complaints and grievances, medication error incidents, regulatory updates and policy and procedure reviews, at least quarterly.
Yes	4	There is evidence that "password" sharing is not taking place.
Yes	5	There is evidence that PV-1 (if central refill) and PV-2 procedures are followed.
Yes	6	The auditor observes that the bar scanning procedure for dispensing accuracy is followed.
No	7	There is evidence that the pharmacy is participating in the current outcomes measurement program for clinical services.
No	8	There is evidence that the pharmacy is participating in the current outcomes measurement program for financial viability of AHF programs.
Yes	9	There is evidence that the Pharmacist In-Charge/Manager (or person assigned) is reviewing and taking appropriate action the following: Daily Sales Report
Yes	10	There is evidence that the Pharmacist In-Charge/Manager (or person assigned) is reviewing and taking appropriate action the following: IMM Performance Reports
Yes	11	There is evidence that the Pharmacist In-Charge/Manager (or person assigned) is reviewing and taking appropriate action the following: 35 Day Report
Yes	12	There is evidence that the Pharmacist In-Charge/Manager (or person assigned) is reviewing and taking appropriate action the following: End of Month Financial Reports
	13	QUALITY OUTCOMES/PERFORMANCE IMPROVEMENT PLAN OF CORRECTION <u>1) Some deficiencies from the last QA audit carried over (Ex. PSA, EQUIPP, reassessment, etc.)</u> <u>2) Could not find evidence in RLDatix if the staff self-reported "events" within the last 6 months.</u> <u>7,6) See the EQUIPP rating report. There are 3 measures below star ratings (Diabetes PDC, Polypharmacy-Anticholinergic, and Statin Use in Diabetes). Recommend they work on the outliers to improve their performance scores.</u>
	14	QA Notes <u>3) CCC-644049 was discussed at the last CQI meeting on 10/31/23</u> <u>4) Verified via screen share each staff has their own Fed Ex account.</u> <u>5) RPH demonstrated the complete process for PV1 and PV2.</u> <u>10) See the attached Clinical Performance Monitor report for November. The projected variance is +6.33%. The target for Nov is 490. The pharmacy completed 521 adherence intervention notes in SF.</u> <u>12) See the attached AR worksheet. The current balance for October is \$98.84 and \$0.00 in the over 121 days write-off column.</u>
	15	Pharmacy Notes

QMEPOS

Yes	1	(DMEPOS) There is evidence that the staff has been trained on the Policy and Procedure related to assisting patients with the use and care of the Glucometer/Nebulizer and supplies
No	2	(DMEPOS) There is evidence that patients who have received Glucometers /Nebulizers and supplies have been trained on use and care of these items
n/a	3	(DMEPOS) There is evidence that the Glucometer and or Nebulizer serial number is documented in the patients Sales Force profile in case of recall
Yes	4	During Inspection the location was able to show documents that demonstrate the Required licenses, including zoning
n/a	5	Location was able to show Credit Agreement(s) or Invoices
Yes	6	Location was able to show Proof of Warranty coverage
Yes	7	Is there accessibility to physical site per CMS standards?
Yes	8	Are the hours of operation clear and visible in the location?
Yes	9	The location was able to show the Comprehensive liability insurance policy and or Certificate of Insurance showing NSC as the certificate holder
Yes	10	The location was able to show the documentation for written instruction/ information on beneficiary use/ maintenance of supply
